

Changes

Don't loose control with JDisc's
History Add-On!

Keep track of changes on your network with JDisc Discovery!

Your IT environment is changing all the time. The JDisc Discovery History Add-On enables you to create snapshots of your devices for later viewing and reference. The change history helps to isolate problems caused by changes in the network environment.

Your benefits at a glance:

- Implemented within just a few minutes
- Unlimited number of device history snapshots
- Review historical device information at any time
- Flexible scheduled snapshot creation

JDisc Discovery – Device History Add-On Capabilities

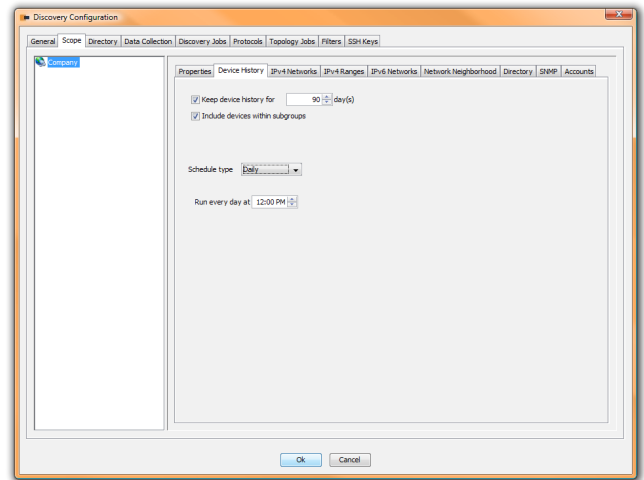

Snapshots

- A snapshot represents the configuration data of a device at a certain point in time
- Take snapshots of your devices at any time
- Take scheduled snapshots of your devices automatically

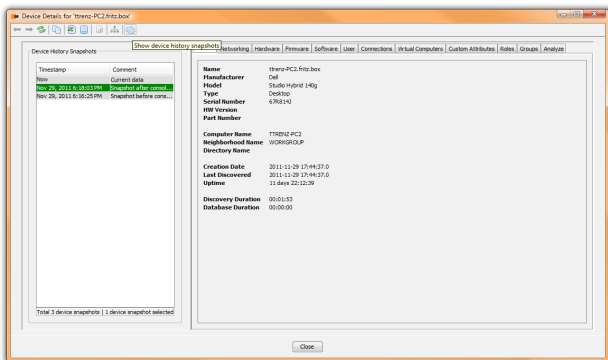

Scheduling

- Schedule device snapshots
- Schedule device snapshots individually for each device group

Reporting

- View device configuration data at different points in time

Support / Maintenance / Upgrades

- We provide custom support via email and telephone hotline.
- We offer consulting and training on request.
- All software updates are included in a support contract.

Pricing

- **Permanent license:** Purchase a perpetual license if you wish to use JDisc Discovery permanently. Pricing depends on the number of devices.
- **Short-Term license:** Acquire a short-term license if you wish to use JDisc Discovery only for the duration of a project. The minimum duration is one week. Pricing depends on license duration (number of weeks) and number of devices.
- **Annual subscription:** Buy an annual subscription if you wish to use the product for one or several years. Pricing depends on the number of devices.

Scalability

- Snapshots are not limited by number of devices
- Snapshots are not limited by number of device snapshots
